

Showcase Your Company at the Forum That Sets the Global Agenda for Common Criteria

For almost two decades hundreds of industry leaders have gathered each fall to focus on collaborative efforts between government and industry in pursuit of the global security framework outlined in the Common Criteria Recognition Arrangement (CCRA) model. This fall over 400 IT security professionals from more than 25 countries will meet in Spain for the 19th ICCC to continue this effort. This important endeavor would not be possible without the support of commercial partners.

Covering the Industry in Three Comprehensive Tracks

ICCC will explore the collaboration with industry that underpins the CCRA model. We will examine progress in the development and operation of international Technical Communities. Clearly understanding customer requirements is an important priority for the iTCs, ensuring products created meet market requirements. These issues and more will be covered in over 60 presentations in three tracks:

Advances in the Use of Common Criteria: The evolving challenges facing the international Common Criteria community and the solutions developed to meet them.

Meeting Customer Requirements: Improving engagement between the Common Criteria technical community and Government procurement policy makers.

Updates from Schemes and ITCs: Updates from the Common Criteria Scheme commentators. ITCs will provide progress reports, sharing roadmaps and lessons learnt.

Showcase your company at the 19th ICCC, the leading forum for the community of professionals involved in Common Criteria (CC), the widest available mutual recognition of secure IT products. ICCC is a high-level technical conference, a forum for discussion on the policy and application of CC, and a professional networking opportunity for those in charge of specification, development, evaluation, certification and approval with regard to the IT security of products and systems. The three-day conference program will feature government and industry experts from across the international Common Criteria community. This important event brings together hundreds of participants from around the globe: Certification Bodies, Evaluation Laboratories, Researchers, Evaluators, Policy Makers, Product Developers, Sellers and Buyers interested in the specification, development, evaluation, and certification of IT security.

A Unique Promotion Opportunity

Promotion opportunities are available for leading companies offering products, technologies and services in this evolving field. It's a unique opportunity to showcase your company to an engaged and highly responsive audience. The event features an efficient three-day participation format that respects your busy schedule.

Located in a World Heritage Site

Toledo is one of the Spanish cities with the greatest wealth of monuments. Known as the "city of the three cultures", because Christians, Arabs and Jews lived together there for centuries, behind its walls Toledo preserves an artistic and cultural legacy in the form of churches, palaces, fortresses, mosques and synagogues. This great diversity of artistic styles makes the old quarter of the capital of Castile – La Mancha a real open-air museum, which has led to it being declared a World Heritage Site.

Located in historic Toledo, with easy access from Madrid Airport

20-22 October
Hotel Eurostars Palacio Buenavista
Toledo, Spain

Three Days of Comprehensive Content Focused on Common Standards For The Security Of The IT Products That We Must Trust

ICCC participants are drawn to the highly-rated conference presentations. Previous topics:

Meeting Customer Requirements: • CC-evaluated products - An end-user's perspective • International collaboration, its practice and discussions in development of Protection Profile for Hardcopy Device (MFP PP) • Protection Profiles: Market Penetration and Lessons for the Next CC • Improving cPP development with end-users • Government agency, industry and security expert in a collaborative approach to deploying Evaluation scheme • Learning from each other and our mistakes • Harder than you thought: Updating the Hardcopy Device Protection Profile • Mind the (assurance) gap • Exact PP conformance in the age of optional requirements • Using Common Criteria evaluations to improve healthcare cyber security • Something Old, Something New, Something Borrowed, Something ... • PP goals - are we on target? • The challenge of methodically opening smart tamper envelope technologies. UNSETH project • BEATING attacks on Biometric Systems • Evaluating in a time of rapid technical advances • Secured Memory: A New Solution, a New Evaluation Approach, a New Challenge • Non-Interfering Composed Evaluation or How to Exchange Components without Re-Evaluation • ISCI-WG1: The updated ETR_COMP template and methodology **Advances in the Use of Common Criteria:** Equivalency and PP-based Common Criteria evaluations • ISCI WG1 Methodology 2014/15 Report • CC Evaluation of Cryptography in Japanese Scheme with Japan - CMVP • Cryptography and Common Criteria - Establishing a representative list of internationally acceptable approved security functions in ISO/IEC 19790 • The need for a common international cryptographic standard • Adopting well-proven testing methods for cost-efficiency in Common Criteria testing • Remote testing as an alternative in CC evaluation • Fail-secure Common Criteria - Preparing the Common Criteria for IT security's worst enemy • Developing the security functional requirements of mobile devices for the Korean government • Is CC ready to lead the future of mobile Security? • Will Common Criteria be the solution for certifying trustworthy "Things" in the "Internet Of Things (IoT)" ecosystem? • Evaluating the revised CCRA - one year on • Progress on MSSR • Clarification of Concepts • Vulnerability analysis for collaborative protection profiles • Reducing Evaluation Redundancy: Site Audit Results Re-Use • Don't be afraid of the Entropy Bogyman **Updates from Schemes and ITCs:** Turkish Common Criteria Certification Scheme - 2015 • Japanese Scheme update • UK Scheme Update • Medium and higher assurance evaluations in the European context • Update on the US Common Criteria Scheme (NIAP) • Common Criteria Users Forum (CCUF) Update • The Network International Technical Community - progress and status • Full Drive Encryption - ITC Progression and Status Report • Estimation of measurement of uncertainty on qualitative evaluations according to ISO/IEC 17025: An experimental study • NIAP: Around the Evaluation in 90 Days • Community action: A Call to Arms 18 years of Common Criteria Certifications - Evaluation trends from a global perspective • Secure software development in the Russian IT Security Certification Scheme • The Development of Common Criteria in China • Explaining GlobalPlatform's modular approach to its TEE Protection Profile • Matching Common Criteria evaluations with the pace of development • Testing the network device: The lessons from the Korean government

Participating Countries

ICCC Brings together all of the member countries of the CCRA

Australia • Austria • Canada • Czech Republic • Denmark • Ethiopia • Finland • France • Germany • Greece • Hungary • India • Israel • Italy • Japan • Malaysia • Netherlands • New Zealand • Norway • Pakistan • Qatar • Singapore • Republic of Korea • Spain • Sweden • Turkey • United Kingdom • United States

Uniting the Entire Industry Value Chain

Who Attends: ICCC brings together hundreds of participants from around the globe: Certification Bodies, Evaluation Laboratories, Researchers, Evaluators, Policy Makers, Product Developers, Sellers and Buyers interested in the specification, development, evaluation, and certification of IT security.

Registrants By Organization Type

Accredited Laboratory	29%
Tech Developer, End-User	27%
Govt/Scheme/Standards Org	24%
Academic/Non-Profit Other	11%
Tech/Solutions Provider	10%

Presented With The Support Of The CCUF

ICCC is produced by Cnxd Event Media Corp. and presented with the support of the Common Criteria Users' Forum. The CCUF provides a voice and communications channel between the CC community and the Common Criteria organizational committees, CCRA member organizations (national schemes), and policy makers. Join the CCUF at www.ccusersforum.org

Following Important Pre-Conference Industry Meetings

From 16-21 October the CCRA and CCUF committee meetings will be held at the Eurostars Palacio Buenavista. These important pre-conference meetings provide a firm foundation for participation at ICCC and help to strengthen the community overall. The majority of participants spend the entire week.

Convenient Two-Day Exhibit Schedule

Over seven hours of dedicated break, lunch, and reception time takes place in the exhibit area.
